

Dear Doctor Popper,

Perhaps I should call you **Doctor Merlin** because I think you are truly a magician. You see problems and magically transform them into solutions, making teeth beautiful. Your expertise, masterful skill, genuine concern and involvement with each patient are remarkable qualities that you possess. You graciously took time to explain the implant procedure, the healing time and the results to me, answering all my questions and removing any doubts or fears I had.

I am amazed at how smoothly and **painlessly** the implantations were done and I am a complete believer in your miraculous work. I tell everyone to see Dr. Popper for beautiful "new teeth."

Each time I smile I will think of you and I will thank you with all my heart for your wonderful work and for such lovely teeth.

You are my hero!

With love and gratitude,

A. H. P.
